

Battle Creek Elementary Traffic Flow Plan

- 1. Front entrance and bike racks**
- 2. Bus lane:** Buses will pick up and drop off in the front of the school. No cars are allowed in this lane during arrival or dismissal.
- 3. Visitor parking:** Visitors to the school park here and enter the school through the front entrance. You must have a valid ID to enter the school.
- 4. Battle Creek Way**
- 5. Car riders' entrance -** Turn right to access parking. Go straight to line up for drop-off or pick-up. Vehicles should never be left unattended in the car rider line.
- 6. Side gate:** At this point, car riders can split into two lanes to ease traffic congestion. This gate is locked from 8:15-2:45 pm.
- 7. Car riders split into two lanes:** Car riders will wait in two lanes until they reach the back gate
- 8. Back gate:** Please have your hanging identification tag visible so we can quickly call for your child. If a driver does not have a visible tag, he/she will be asked to pull over and provide ID to verify that he/she is on the child's pick up list.
- 9. One lane car rider pick-up:** At this point, the two lanes will merge. Pull all the way forward, but do not go past cone number 1. Once all vehicles are stopped, students will be dismissed. Students should enter/exit cars on the passenger side to ensure safety. If you have boosters/car seats, practice with your child how they can slide past these seats as they exit the car. Watch for buses entering the parking lot before exiting.
- 10. Bus entrance**
- 11. Car rider exit**
